### **Salt Water Release Reported in Williams County**

BISMARCK, N.D. – The North Dakota Department of Health has been notified and is monitoring a brine (salt water) release in Williams County, located about 13 miles southeast of Grenora.

According to the report, approximately 300 barrels of brine water were released on the well site. Approximately 200 barrels have already been recovered and the remaining amount is currently being cleaned up. The spill is completely contained at the well site.

For more information, contact Dennis Fewless, North Dakota Department of Health, at 701.328.5215.
